

Attitude Facts List

Vehicles	
1	If you follow a vehicle, especially a large vehicle, too closely your view of the road is restricted
2	If a lorry is overtaking you, but it's taking a long time, you should slow down and let him pass
Trams	
3	Roads which have tram lines can cause cyclists difficulty
4	Trams follow diamond shape signs
Warning Signs	
5	Only use your horn to alert others of your presence
6	Only flash your headlights to let others know you're there
Roads	
7	If you're travelling at the legal speed limit and car behind starts flashing, you should allow the vehicle to overtake
8	At unmarked crossroads you should slow down and look both ways
9	If a driver is following you too closely, slow down to increase the gap between you and the car in front
10	Diesel fuel is slippery. You should check your filler cap is securely fastened to make sure none is spilt
11	If a bus lane shows no times, it's in operation all the time, 24 hours a day
12	On a dry road, keep a 2-second gap between you and the car in front
13	On a wet road, keep a 4-second gap between you and the car in front
14	On an icy road, keep a 20-second gap between you and the car in front
15	To turn right at the end of a one-way road, position your car in the right-hand lane
Driving at Night	
16	When in a traffic queue at night, to make sure you don't dazzle drivers behind you, you should put your parking brake on and release the footbrake
Crossings	
17	Toucan crossings are for cars and cyclists to use at the same time

18	Pelican crossings have flashing amber lights
19	Flashing amber means you can go, but must give way to pedestrians already on the crossing
20	Puffin crossings have a sensor, they can detect when pedestrians are still crossing
21	The traffic light sequence is: Red – Red and Amber – Green – Amber – Red
22	You should never wave people across at zebra crossings
Emergency Vehicles	
23	Emergency vehicles use blue flashing beacons. This could be police, fire engine, bomb disposal and others
24	Doctors on call use green flashing beacons
25	Slow moving vehicles use amber flashing beacons
